A candidate may satisfy some of the coursework requirement through other qualifying credentials. CFP Board implemented the bachelor’s degree or higher requirement in 2007 and the financial planning development capstone course requirement in March 2012. Therefore, a CFP® professional who first became certified before those dates may not have earned a bachelor’s or higher degree or completed a financial planning development capstone course.
- **Examination** – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual’s ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- **Ethics** – Commit to complying with CFP Board’s Code and Standards. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional’s services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- **Continuing Education** – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep

up with developments in financial planning. Two of the hours must address the Code and Standards.
